Course Details

This is a 1-day (7 hour), Live, Online course offered through *Zoom* (the meeting platform).

This one-day (1) course provides a solid foundation on how to effectively communicate with, write reports, and invoice insurance companies for motor vehicle collisions in New Brunswick. More than ever massage therapy is becoming accepted by medical professionals as a regular part of healthcare, and as a result, massage therapists can invoice insurance companies for massage therapy treatments related to motor vehicle collisions.

Learning how to communicate, write reports, and invoice insurance companies for massage therapy treatments can help build your massage therapy practice. Since each insurance company has different plans and rules around submitting reports and invoicing, learning how to ask the right questions to the right people will help guide you to build a professional relationship with adjusters.

This course was created from my own research (along with adjusters from various insurance companies) and based on exactly what they expect from massage therapists when submitting reports and invoicing due to motor vehicle collisions in New Brunswick.

What to bring

- Pen & Paper.
- A device or computer that has the capability to join a Zoom call is required for this course-with a camera and microphone capability.
- **A Zoom meeting link will be sent to all course participants via email the day before the course is scheduled to begin.**
